Locks

Double locking

Dual locking of the shackle in the lock body

Pocket size

Lock in small format

XL size

Lock in large format

Lighted key

Lighted key included

Manual locking

Active locking with a key required

Automatic locking

No active locking with a key required

Robust webbing

High-tech mesh, durable and hydrophobic

Combo

Combination code is factory set

Individual code

Combination code can be freely selected

Bordo 6-bars

Folding lock with 6 bars
The classic

Bordo 8-bars

Folding lock with 8 bars offers even more flexibility due to greater length

X-Plus

Picking-resistant disk cylinder „X Plus“

Plus

Picking-resistant disk cylinder „Plus“

Keyed alike

Multiple locks can be operated with a single key

Magnetic holder

Innovative bracket with magnetic function

Lightweight

Lightweight lock, ideal for sports use

Alarm

Lock with 100 dB alarm function

OEM

Locks are delivered without sales packaging so they can be mounted more quickly. Ideal for use in workshops

Helmets

ABS hard shell

Robust helmet made of EPS foam and injection molded outer shell

In-Mold

Lightweight, durable helmet with a long-lasting combination of EPS core and Polycarbonate shell

High visibility

High visibility due to reflectors

Bug mesh

Full protection from insects

Ponytail compatibility

Perfect fit for people with long hair

Half-ring

Adjustable ring connected to adjustment system enclosing half of the head

Full-ring

Adjustable ring connected to adjustment system enclosing all of the head

Forced Air Cooling

Innovative ventilation system using intelligently arranged air channels in the EPS

Lower edge protection

Provides the helmet with additional protection from external damage

ActiCage

Structural reinforcement integrated into the EPS to optimize stability

XL Size

Large helmet sizes available (62+ cm)

Ventilation

Number of air intakes and outlets

Discover the new 2018 catalog!

We're happy that you're holding the new 2018 ABUS catalog in your hands. The purpose of this catalog is not only to inform you of our product innovations, but also to present our new catalog concept:

An easy-to-understand organisation with quick access to any chapter as well as a list of all new product features at the start of each chapter make it easy for you to find the right product and everything new about it.

Clear product icons instead of longer text make it a breeze to compare products, and our new technology pages keep you informed about our unique technologies.

Another new feature: The icons at the side provide you with an overview of all of the specifications of our products. From the innovative folding lock with powerful audio alarm to the intelligent „Forced Air Cooling Technology“ ventilation system.

Just fold out the additional page of the cover and you've got all the relevant information at your fingertips at any time.

We hope you enjoy daily use of this catalog and that it offers you a better basis for your work.

Helmets and technologies – this is new:

We've put together an 8-page section to inform you about all technologies ABUS helmets offer you

The following helmet chapter is organized as follows: Road | Offroad | Urban | Kids

VENTILATION

— WARM AIR
— COLD AIR

MULTI POSITION DESIGN

The fight against the wind is one of the greatest challenges for all cyclists. The innovative Multi Position design provides a reduced wind exposed

surface under any conditions, offering optimized aerodynamics – regardless of head position and different wind contact angles.

Tour

All ventilation intakes are open. Maximum ventilation, good aerodynamics.

Race

Your head position causes the front air intake blades to reduce the air vents. Aerodynamics are at their optimum point.

Sprint

The front air intakes are completely closed. Maximum aerodynamics, reduced ventilation.

FORCED AIR COOLING

When it comes to ventilation, we accept no compromises.

Our innovative Forced Air Cooling technology is an innovative ventilation system with deep, condensed air stream channels. It channels the incoming air around the head, and thereby ensures the perfect ventilation.

Only when the ventilation channels are effectively connected, cyclists reach the best temperature control of the head and thus a high comfort during the ride.

FITTING

FLOWSTRAPS™

The ABUS GameChanger FlowStraps™ are an innovation for ultimate comfort and aerodynamics. The fixed strap distribution is an ode to adjustability. Customization is simply no longer needed. Thanks to these specially designed straps, flutter and wind chatter is a thing of the past.

PADDING AND ADJUSTMENT SYSTEM

In the ABUS GameChanger, the combination of the adjustment system and the floating pads is unique. The padding is not glued at fixed points, but mechanically fastened by clipping over the strap anchor points.

The connection creates an airconditioning effect as air can flow freely between the pads, rider's head and the EPS core.

AIRPORT™

The AirPort™ on the back of the GameChanger offers two decisive advantages: The glasses are stowed securely on the helmet and are completely integrated into the helmet aerodynamics. That's what we call a practical while still valuable aerodynamic advantage.

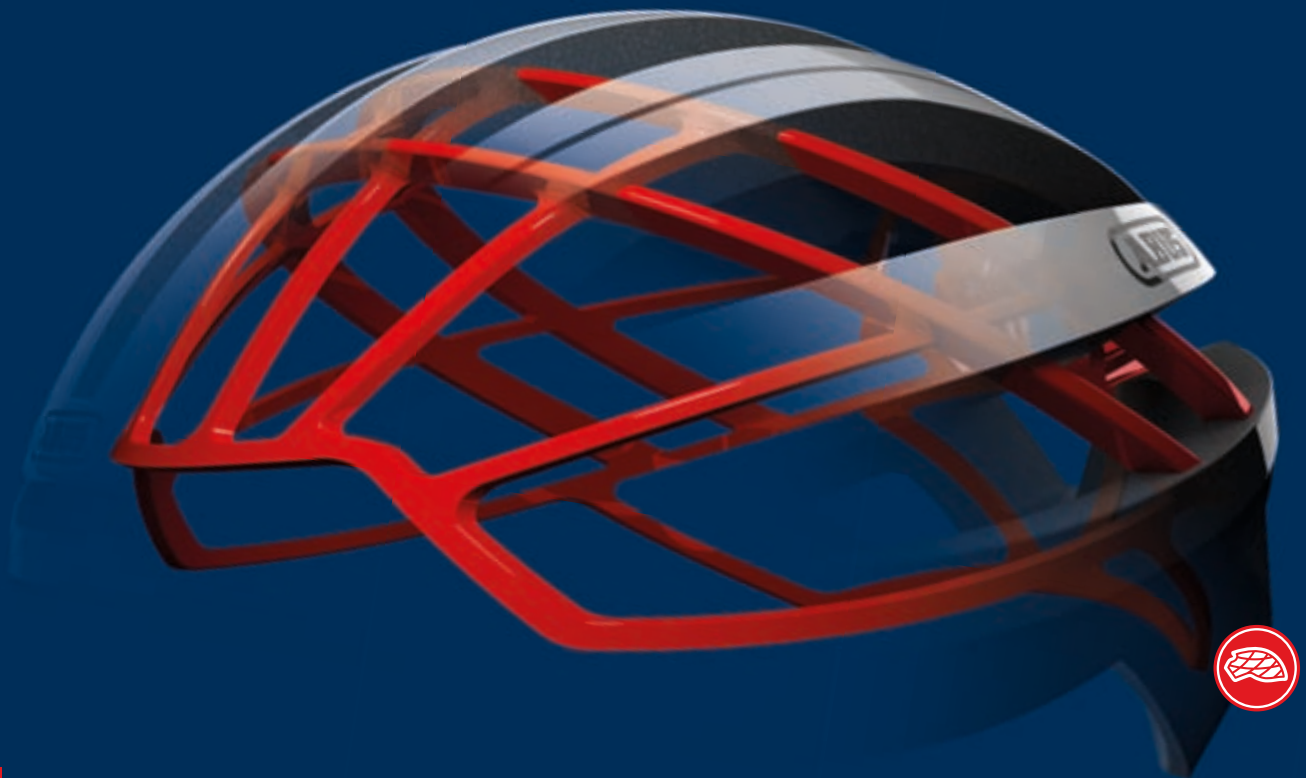

PONYTAIL COMPATIBILITY

The new ZOOM Ace adjustment system offers riders with long hair another winning advantage: The gap designed specifically into the adjustment system offers plenty of space for long hair or a ponytail.

Annoying pressure points and possible headaches are no longer an issue.

With an additional height adjustment the ZOOM Ace system allows adjustment to any wearer's needs.

SAFETY AND COMFORT

ACTICAGE

The ABUS ActiCage is a structural reinforcement built into the EPS. It offers maximum protection with optimum ventilation and ultimate comfort.

With the ActiCage, ventilation openings in the helmet can be extremely large without compromising the helmet's structural integrity and your safety.

ABS HARD SHELL

IN-MOLD

ABS HARD SHELL OR IN-MOLD

ABUS helmets with an ABS hard shell are known for their robust strength. The impact-resistant outer shell shrugs off smaller impacts, for example when the helmet accidentally falls off a table or out of the closet.

In-Mold helmets are well-ventilated models whose outer shell is permanently connected to the foamed EPS. They are characterised by a lighter weight and slim design.

TEMPLE AND LOWER EDGE PROTECTION

ABUS, as a pioneer in urban safety, values maximum protection along with maximum wearing comfort. Especially for children, it is important to protect areas such as the temples and neck in particular.

The lower edge protection also looks great and protects the helmet from external damage.

VISIBILITY

For additional safety in road traffic, ABUS helmets feature reflectors and LED rear lights. The high-mounted LED rear light ensures better visibility.

It won't be covered by a scarf, high collar or backpack.

Highly effective reflectors in carefully considered positions also increase visibility under different weather and lighting conditions.

Sponsoring the MOVISTAR Team

The finish line is in sight,
the pursuers are breathing down
your neck...

Official Partner

		
---	---	---

... a willingness to suffer decides between victory or defeat. The ability to channel your entire strength for one fleeting moment - that is cycle sport in its purest form. Man, machine, victory, it sounds simple, but it's the result of years of hard training, even for the pros on the MOVISTAR team.

At ABUS, we support the love of athletes for cycling and our helmets will ensure that you reach your destination – safely!

With MOVISTAR Team, the most successful team in recent years, ABUS is draws on the world's best cyclists and a outstanding team spirit. In the partnership, not only does the team wear the ABUS brand in the high-class world of sports cycling, but also offers important insights with respect to the continuous development of our helmets.

28 cyclists from nine nations provide invaluable feedback – a partnership between equals which makes a significant contribution to helmets at the top level. This is how we would like to guarantee that we remain able to offer top quality and great value for money.

ABUS wishes MOVISTAR Team much success!

MonTrailer ACE MIPS

Ever more demanding trails and improved riding skills demand more protection, too. This increased need is covered by the MonTrailer. The EPS, combined with the five interlocking polycarbonate outer shells and the ABUS ActiCage, make this helmet both secure and robust. MIPS technology can also offer increased protection in case of an oblique blow to the head. The transparent visor ensures an excellent view in all directions without taking your eyes off the trail.

Moventor

All-mountain helmets are becoming more interesting for any mountain biker. The Moventor meets the MTB athlete's every need. Its features are perfect for any ride: it's lightweight, extremely comfortable, offers excellent ventilation, and thanks to the ABUS ActiCage, a structural reinforcement integrated into the EPS, it's extremely safe.

Pedelec+

Riders of speed e-bikes in Holland are required to wear a helmet that meets specific requirements. With the Pedelec+, ABUS is one of the first manufacturers to bring you a helmet that meets those requirements. Its extended temple- and neck cover offers the additional protection required. The Pedelec+ also offers a built-in rain cap that can quickly be pulled over the helmet at the first drops of rain.

Yadd-I Kid

With the Yadd-I Kid, children are not only safe, but also eye-catchingly fashionable on their bikes. Its angular design looks great and stands out from the crowd. Thanks to the innovative Soft Tune System, the helmet only needs to be adjusted once. After that, it can be put on and taken off in no time – like a baseball cap.

Smiley 2.0

The Smiley 2.0 is the perfect helmet for toddlers with training wheels or along for the ride in a child seat on mom or dad's bike. The slightly flattened back of the helmet allows the child to sit comfortably and relaxed in the seat. A simple entry-level child's helmet with cute designs and a generously sized reflector.

Ref. No.	EAN 4003318	Colour	Weight g	Size	Head size cm	Box Qty
